

Please join us for **Boulder Solar Day**

Thursday, March 15, 2018

8:30 AM–6:00 PM

Hosted by HAO at
Center Green Bldg 1

Highlights include:

- Director's Update Kickoff Talk
- Keynote —“NASA's Juno Mission to Jupiter: Both Inside and Out—
What's Going on at the Giant Planet?”
by Fran Bagenal from LASP/CU
- Poster Session
- Tasty Reception

This informal annual 1-day meeting brings together researchers from local institutes, including CU, HAO, LASP, NCAR, NOAA, NSO, NWRA, and SWRI, to discuss current progress on solar instrumentation, observations, and models. Participation is free and open to anyone interested in solar research.
